PA

F.O.H.

- Gentle highend without harshness and big heavy bass without oppression are preferred.
- Master compressor and EQ are inserted in main mix. If you want to compress master mix, please do it gently and preserve the transient of bass drum.

Monitors

- Hitomi (DJ) uses in-ear monitors. No floor monitors are needed.
- yukako (Vocal) uses in-ear monitors, but she requires a floor monitor.

Visual

	Connection	Resolution	FPS
1	HDMI	1080p - 2160p	30

- LED panels are preferred than projectors.
- If there's no LED panels or projectors with enough brightness, we might bring our projectors.
- VJ operates on the stage. Contact us in advance if we need cables and extenders over 20m.

Lightings

- VJ plays throughout a show.
- We will send you lighting plans and demo sounds separately.
